

# Product Profile

## Identification

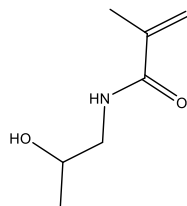

**Product Name:** 2-Hydroxypropyl methacrylamide

**Synonym(s):** N-(2-Hydroxypropyl)-2-methyl-prop-2-enamide, *N*-(2-hydroxypropyl)methacrylamide),

**Sample #:** HPMAMD

**Lot#:** P45713-HPMAMD

**Structure:**

**Composition:**

|                   |                                                |
|-------------------|------------------------------------------------|
| CAS#              | 21442-01-3                                     |
| MW                | 143.18                                         |
| m.p               | 68 °C                                          |
| CP by HNMR        | +98%                                           |
| Molecular Formula | C <sub>7</sub> H <sub>13</sub> NO <sub>2</sub> |
